# DOCK CORNER SEAL

## Keep Bugs and Vermin Out and Energy Savings In

**Gaping holes around the dock levelers are another challenging problem for facility managers.** For years, companies have been trying to tackle “the gap” between the dock seals and the leveler. DL Manufacturing has the solution with our new Dock Corner Seal. Whether the issue is energy loss or sanitation, the Dock Corner Seal fills the gap.

**The Dock Corner Seal’s simple design is easy to install and durable** to withstand the rigors of the loading dock environment, so saving energy and improving sanitation is simple and affordable.

**Package includes:** Two Dock Corner Seals, Hardware package if using with vertical storing levelers.

**Visit [www.dlmanufacturing.com](http://www.dlmanufacturing.com) to view our Dock Corner Seal installation video.**

The dock corner has always been problematic from an energy loss and sanitation perspective. The Dock Corner Seal is a quick, simple way to close the gap.

**Before** Dock Corner Seal you can see open areas susceptible to air infiltration and vermin infestation

**After** Dock Corner Seal those same open areas are eliminated
