STRAP BARRIER™

Retractable Dock Door Strap

Keep Your Dock Workers Safe

- Designed for docks 48" or lower in height that leave dock doors open
- Designed to withstand 200lb pull force. Does not equate to fall protection.
- Highly visible, yellow warning barrier.
- Strap is retractable to keep clear of door opening when not in use

Can be incorporated with DL Manufacturing's Dock Communication Systems, or used as a stand alone unit

The Smart Choice for facilities that keep their loading dock areas open

Optional proximity sensor detects that the strap is engaged when used with Safety Signal™ or Smart Chock™

INNOVATIVE PRODUCTS FOR THE LOADING DOCK INDUSTRY

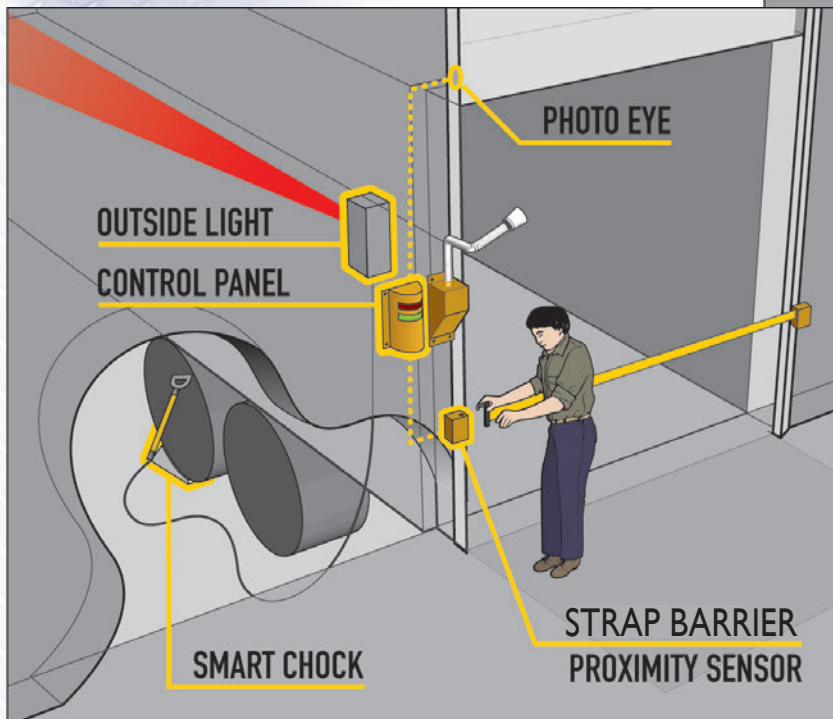

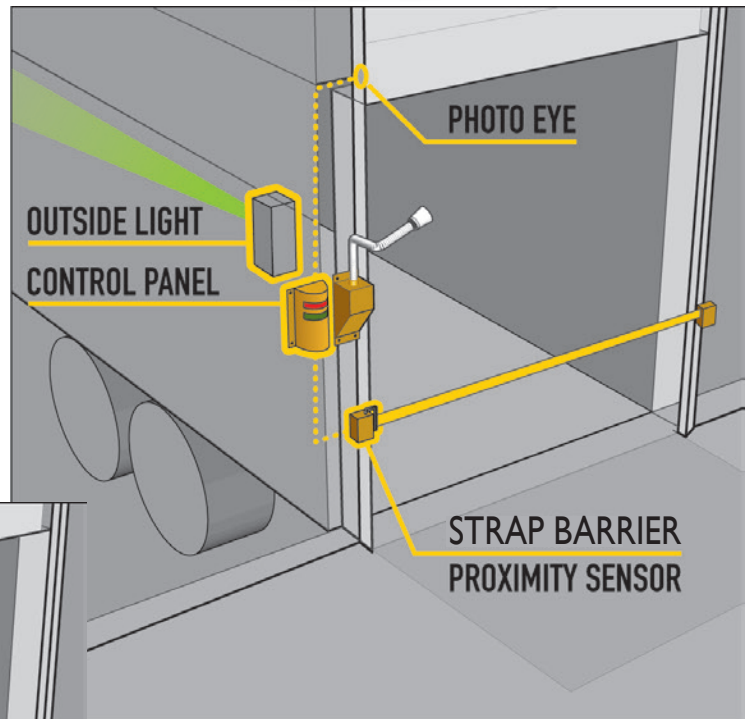

Incorporate **Strap Barrier** with Smart Chock or Safety Signal to help reduce the potential for dock accidents and improve production

Strap Barrier and Safety Signal communication system setup

The Strap Barrier with optional proximity sensor can be used with Safety Signal at facilities that typically keep their doors open. 

Strap Engaged:	Strap Disengaged:
Inside Box Red	Inside Box Green
Outside Box Green	Outside box Red
Versa Light* OFF	Versa Light* ON
Auxiliary Output OFF	Auxiliary Output ON

*Versa Light optional

Strap Barrier and Smart Chock communication system setup

When supplied with optional proximity sensor, Strap Barrier can be integrated with Smart Chock. The Strap Barrier replaces the function of the dock door opening and closing when the facility operates with the loading dock doors open.

Model 203 Specifications:

- Includes proximity sensor to incorporate with Safety Signal or Smart Chock
- Powder coated steel housing
- High strength durable nylon strap
